PETITION IN OPPOSITION TO THE CREATION OF A TRANS TASMAN NATURAL HEALTH PRODUCTS REGULATOR

We, the undersigned, are opposed to the creation of a Trans Tasman regulator to control the Australian and the New Zealand Natural Health Products industries as well as all pharmaceuticals and medical devices. We believe the recommendations of the Health Select Committee should be followed and Natural Health Products should be controlled in New Zealand, separately from pharmaceuticals and in the way that is best for New Zealanders. We ask Parliament to reject the implementing legislation as not being in the best interests of New Zealand.
